Notice that group two comes in when group one reaches m. 5. Groups three and four should begin during group one's second time through (when group one is at mm. 3 and 7 respectively)

Singers should clap on beats 2 and 4 while singing. The X-noteheads indicate this. Start clapping once you start singing.

At the end:

Once you have finished singing, continue clapping beyond when everyone has finished singing (and there is only clapping). End clapping together with a visual cue.
